

# January/ February newsletter

Do you have any 'Loose Parts' we could use in our play space?

Loose parts can be anything from branches, sticks, small rocks, pine cones, shells, tyres, ropes, pvc pipe, logs, wooden off cuts, craters, seed pods, stumps, nuts and bolts – the possibilities are endless.

Most loose parts don't cost anything to obtain, it could be things you already have lying around your home.

If you can help us out, we would be extremely grateful, especially any large pipes or tubing is always a big hit with the children!

We are also after any old electronic equipment, such as; old computers, printers, phones, stereo or radios, etc. that the children can pull apart and try and put back together using real work tools!

we have a loose parts box located under the sign in and our table. Feel free to drop items of in there.

A big welcome to all our new families and welcome back to our existing and returning families. We are looking forward to a very happy and eventful 2025, filled with fun, laughter and exciting new challenges for everyone at Young Ummah Academy

Leading into 2025, we thank our educators for your enduring commitment and dedication to children's learning and thank all families for your continued support and partnership in assisting us to positively influence learning and build genuine, lasting relationships.

We also give a massive thanks to each and every child at YUA. The excitement we get every day as we see you playing, investigating and learning is truly fabulous. We can't wait to see the expressions of wonder and joy on your faces, as we observe you play and learn in 2024!

## Exciting Changes around the centre

You may notice some changes in our room and around the service. Our children are loving getting involved setting up the service for the upcoming year and curriculum. please feel free to make suggestions, to our educators, communication box or communication board.
